12" SQUARE FLOOR SINK

DESCRIPTION: 12 x 12 Cast Iron Sanitary Floor Sink with White Acid-Resistant Porcelain Coating. Aluminum Dome Interior Bottom Strainer Included. Grate sold separately.

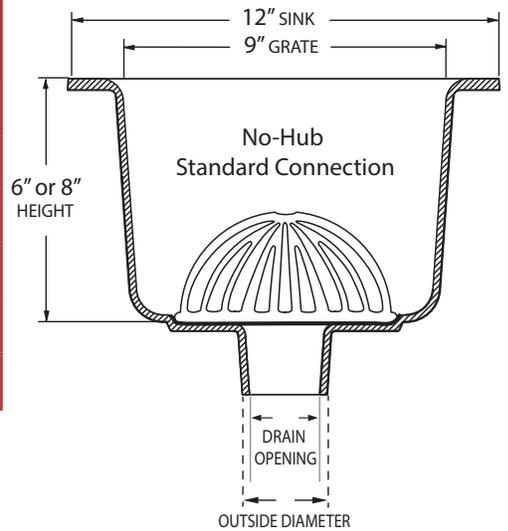

No-Hub (standard) Pipe Connection

A no-hub drain has a lower end that is the same diameter as the drain pipe beneath it. Required on the outside of the butt connection is a common no-hub coupling made of a neoprene sleeve surrounded by corrugated stainless steel and band clamps that tighten around the coupling..

Suitable for: cast iron, plastic and most other piping applications.

Push-On No-Hub Pipe Connection

A push-on no-hub drain has a neoprene gasket with pipe stop in the inside of the lower end. The pipe and gasket are lubricated and the drain body is pushed down over the pipe until it makes contact with the internal stop of the drain body hub. No coupling is required. Can mean a significant reduction in time and labor costs.

Most suited for: PVC pipe but will work with cast iron and schedule 40 steel.
